

Our Services: How we can help you

Vocational rehabilitation is vital in helping injured and/or disabled individuals in returning to work. This information is designed to help you understand our services and how we can assist you.

Many thanks for your help; your expertise and guidance was very beneficial and I needed someone to make me think what was achievable.

CLAIMANT

I don't think we would be where we are today with this case if it wasn't for the consultant's hard work and determination to keep the GRTW progressing despite all the barriers that existed

INSURER

The VRC's advice and support was key to the success of this return to work
