How to Use Direct Support

Overview

As Developer Circle Leads, you should be set up with Business Manager and in turn, Direct Support. With Direct Support you will be able to do a number of awesome things on behalf of your community as well as communicate with Facebook regarding Developer Circle event logistics. This short guide will explain how to notify the Facebook team about an upcoming event through Direct Support.

Notify about an upcoming event

- 1. Go to [Direct Support](#).
- 2. Select the green button: “Ask a Question”.

- 3. Select “Event Registration” as the topic. Where it says “Question”, please enter the information using the following format “Facebook Developer Circle Meetup (Month + Year): (City)”.

Ask a New Question

Topic:

Event Registration

Question:

Facebook Developer Circle Meetup (August 2016): Manila

4. This will generate the following form. The * represents required fields, while the [?] are tool-tips that can provide clarification or more detail for each question.

Question*

(Test) Facebook Developer Circle Meetup (August 2016): Lahore

Description*

Please use the event name for the Question field above and enter any additional notes here in the Description field.

Meet-up Date*

Meet-up Time*

Expected Number of Attendees*

Event Venue*

Capacity of Venue*

Valid Mailing Address*

Meet-up Goals*

Using Facebook provided content?*

Yes

If so, which presentations will you be using?

Meet-up Agenda*

Choose Files

No files selected

You can attach images, videos, spreadsheets, plain text files, PDF documents, Word documents, and PCAP (packet capture) files. Maximum file size is 30 megabytes.

5. Fill out the form answering each field completely, though the format does not have to be formal.If you need help with ideas for content or documentation, please reach out to your Developer Circles Contact.

Attached is a sample completed form. If you need help with ideas for content or documentation, please reach out to your Developer Circles Contact.

Note - the Event ID is particularly important for tracking purposes; you can find it in the Facebook Event page

Ask a New Question

Topic: Event Registration

Question*

Facebook Developer Circle Meetup (August 2016): Manila

Description*

This will be the second meet-up for the Manila circle. The focus will be on communicating the value of Facebook identity tools and show how to integrate Facebook Login and Account Kit. We will have 2 members of the Facebook team on hand to help our developers explain integration and answer any questions in a Q+A after.

Meet-up Date*

August 29, 2016

Meet-up Time*

8pm

Expected Number of Attendees*

250

Event Venue*

PLDT innolab

Capacity of Venue*

400

Valid Mailing Address*

Attention: Paul Pajo
PLDT innolab, 721 Boni Ave, Mandaluyong, Metro Manila, Philippines

Meet-up Goals*

Introduce members of the group and members of Facebook team, raise awareness of Facebook Login and Account Kit products and explain best practices.

Using Facebook provided content?*

Yes

If so, which presentations will you be using?

TBD

Meet-up Agenda*

Tentative:
1. Welcome (10 minutes)
2. Workshop on Facebook Login integration with Firebase (45 minutes and 15 minutes of Q&A)
3. Success Stories of Apps with Facebook developer products (45 minutes and 15 minutes of Q&A)
4. Intro to Account Kit (45 minutes and 15 minutes of Q&A)

Link to additional materials

Plan for audience development*

I plan to work with local tech hubs (Kickstart Ventures, Brainspark, Ideaspace, Smart, etc.) to source interested attendees and visit local universities to source interested students. I will use SplashThat to monitor RSVPs and help people check in at the event.

Plan for online engagement*

We plan on continuing engagement by holding a meetup every 2-3 months. Online, I will leverage the Facebook group and use it to share relevant content and industry news.

You can attach images, videos, spreadsheets, plain text files, PDF documents, Word documents, and PCAP (packet capture) files. Maximum file size is 30 megabytes.

Cancel

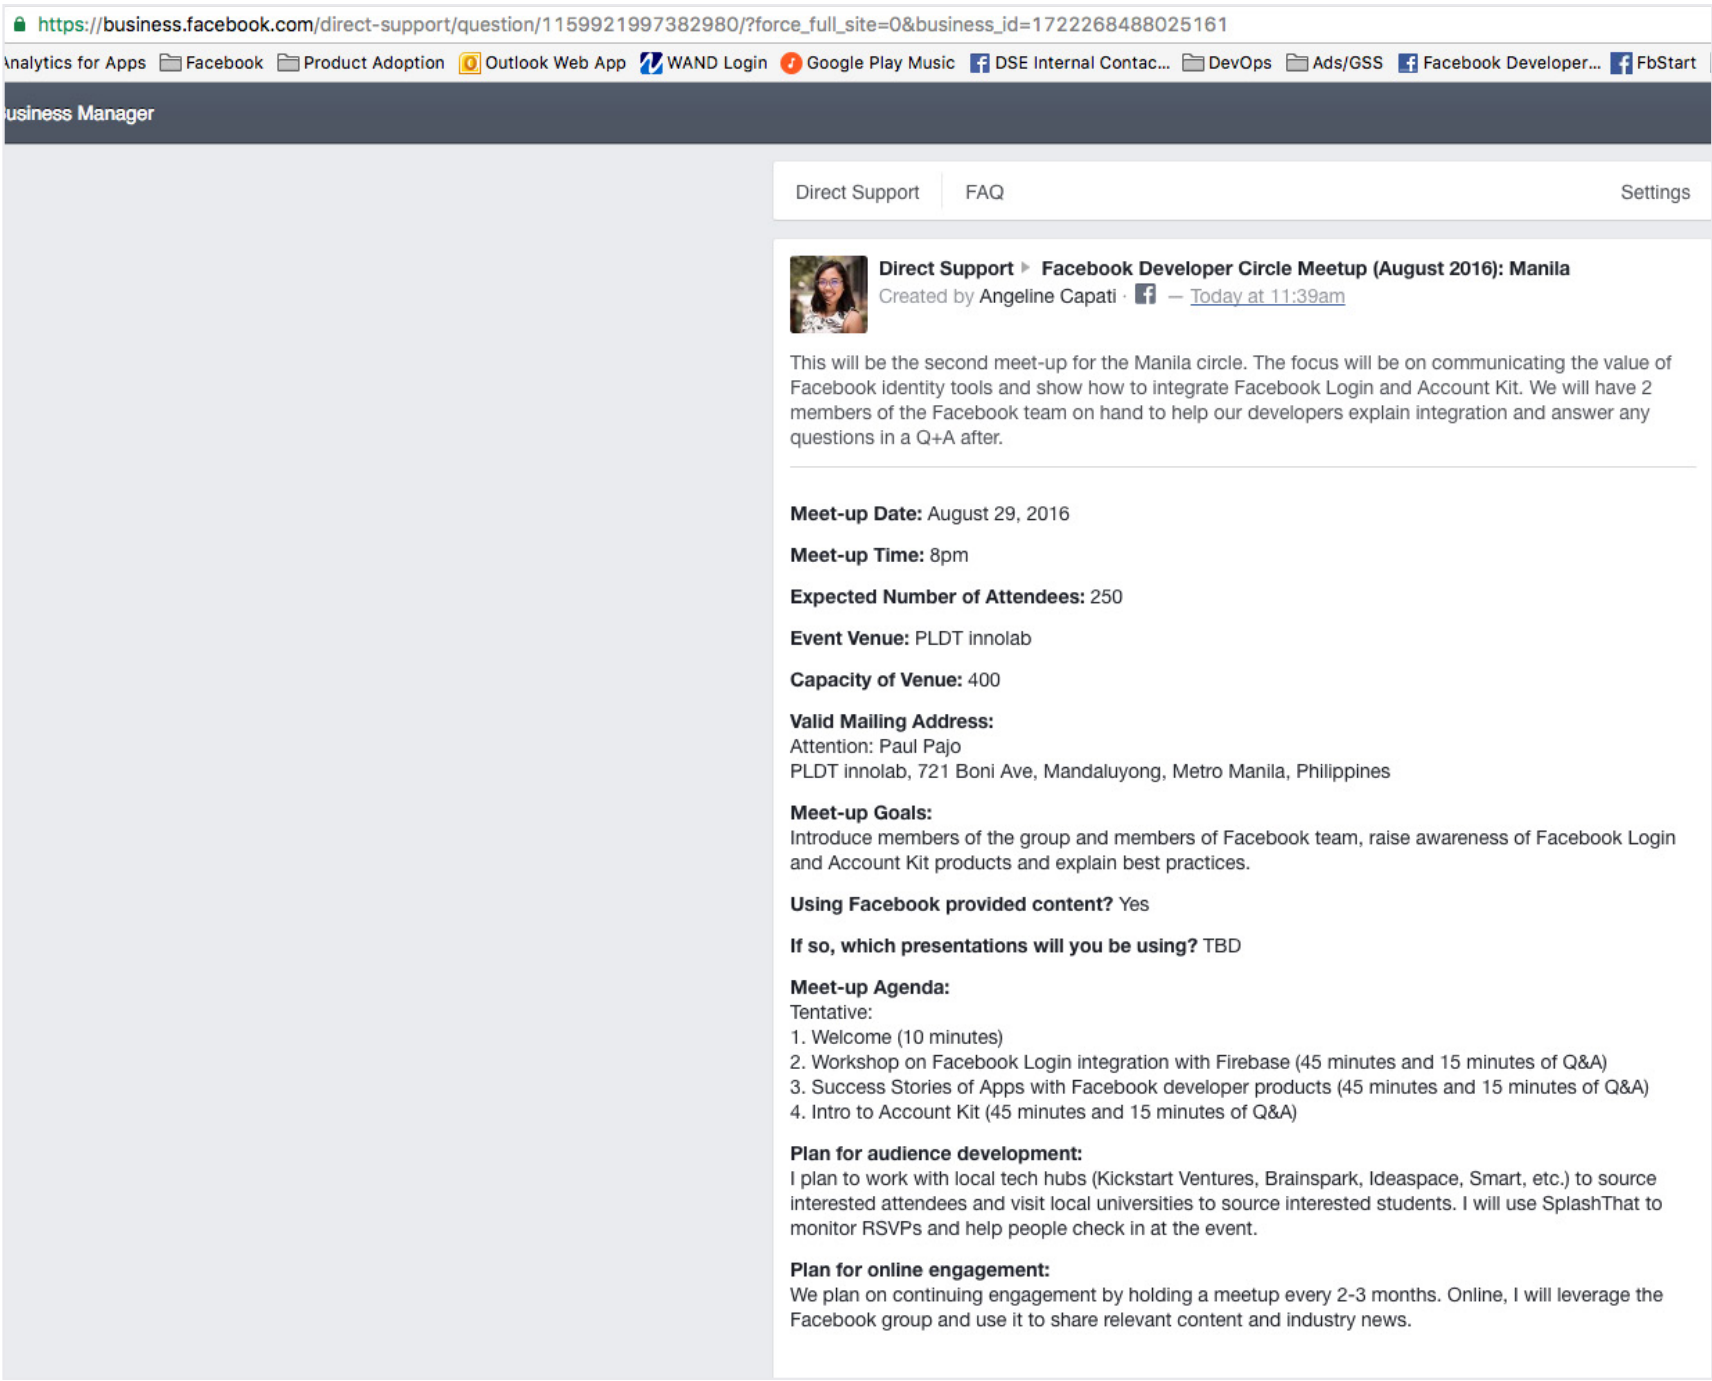

Confirm

6. Click on “Confirm” to submit the form. This will generate a ticket for members of the Facebook team, who may then include other relevant members.

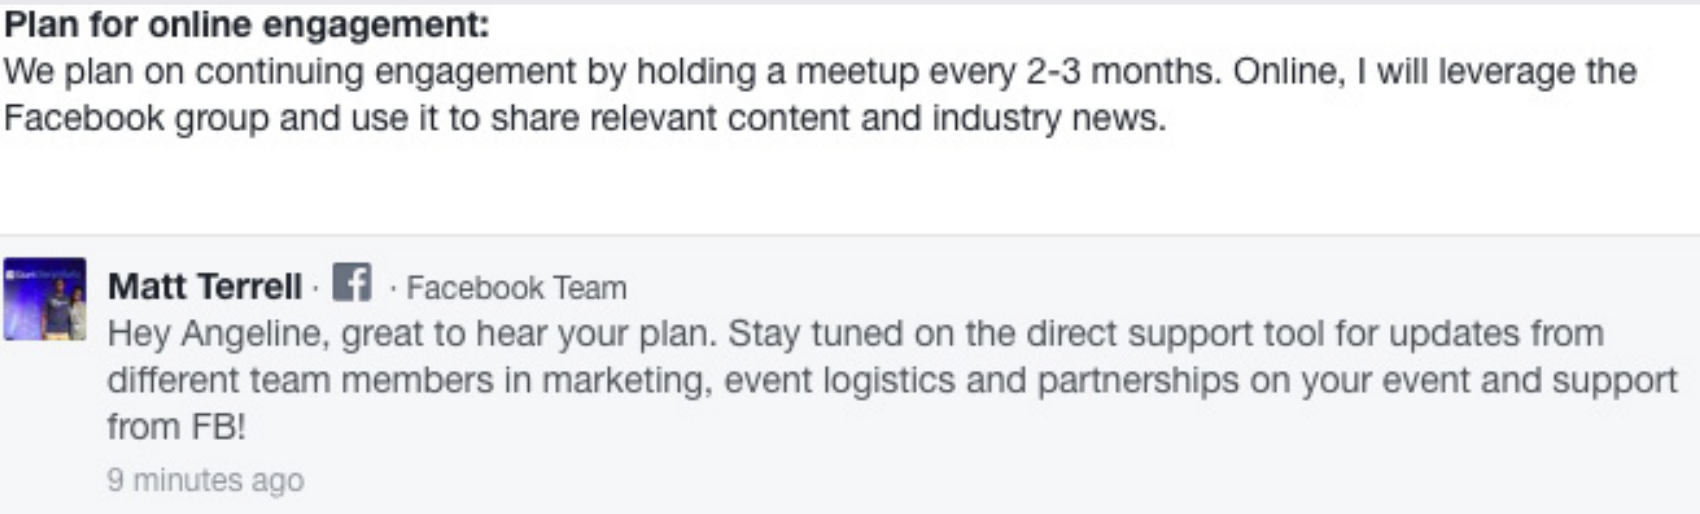

This is what the actual ticket should look like: (if it doesn’t look like this and looks buggy, please let your Developer Circles Contact know).

This is what the ticket page should look like on your Direct Support home page:

7. Members of the Facebook team will then be able to communicate with you through the ticket with relevant updates and feedback.
