

INVESTIGATION WITH REAL INSIGHT

RGI
SOLUTIONS

THE INTELLIGENT CHOICE

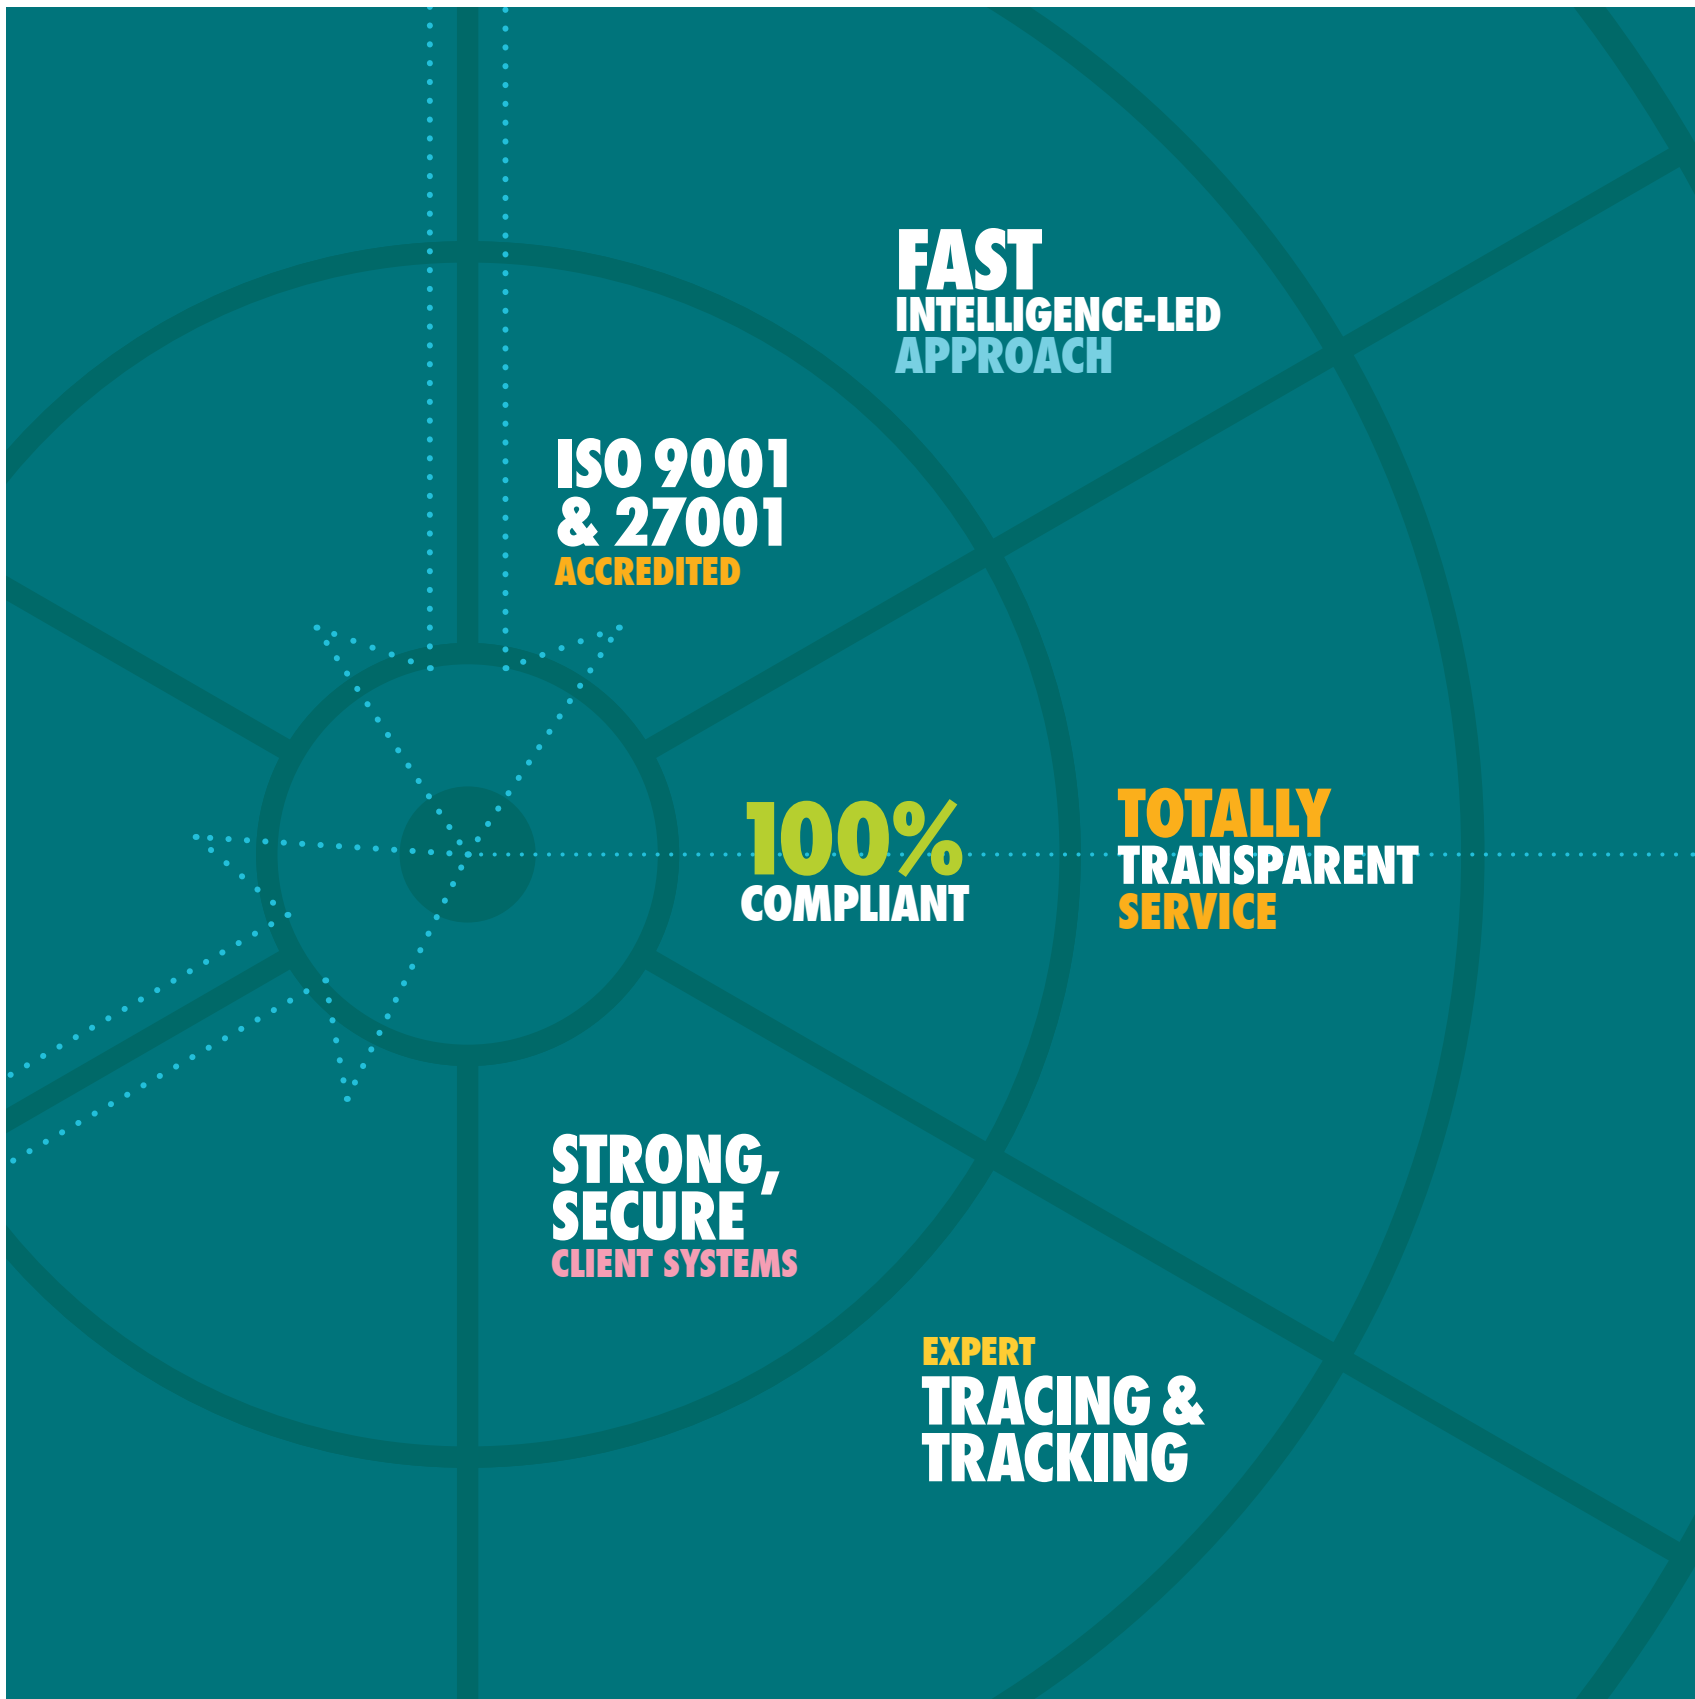

It's not by chance that RGI has grown to become one of the country's leading independent insurance investigation specialists.

When we set out in business back in 1990, our mantra was simple: **'to provide integrity, reliability, insight, value and quality in everything we do'.**

Today, with leading insurance companies, solicitors, self-insurers and claims handling companies among our clients, **those founding principles remain just as important to us** as they did all those years ago.

Proud of our clear, **fixed-price services** and outstanding fraud savings rate, we deliver exceptional value.

Believing that being **'good' really isn't good enough**, we view the service level agreement we establish with each client as the absolute minimum standard we must achieve.

SPEED AND EXPERTISE

If our many years of experience have taught us one thing, it's that every investigation is unique. It's also why we never adopt a one-size-fits-all solution.

Understanding that speed is always of the essence, we offer a **rapid response**. Committed to providing an intelligence-led, no-nonsense approach, we embrace the very latest information technologies and were the first investigations specialist to invest in **i2 intelligence analysis software**.

At the forefront of compliance, we provide **complete peace-of-mind** from our field force of highly trained ex-Police and MoD personnel. While, as an assurance of the quality of our processes and procedures, we are both **ISO 9001:2000** and **ISO 27001** information security management system accredited. In short, choosing RGI means working with an insightful, approachable, **wholly compliant** investigations team that listens, acts and delivers.

ENDORSED AND ETHICAL

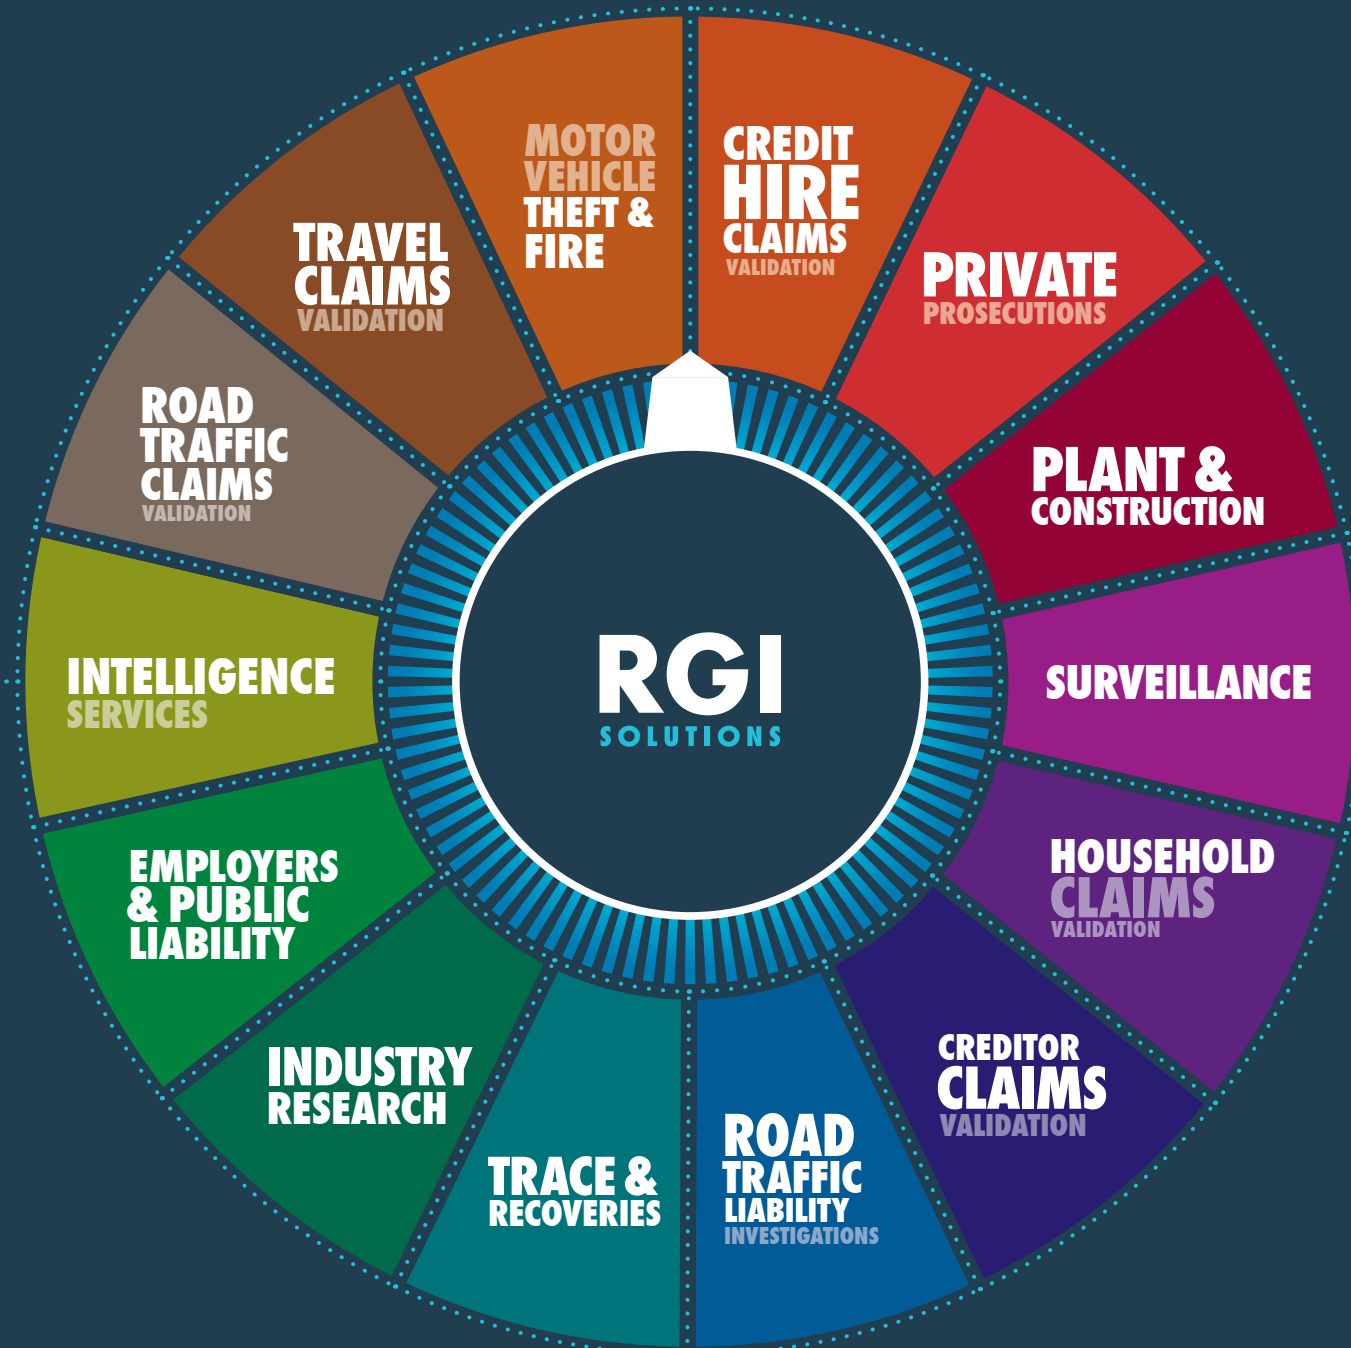

To ensure a prompt and successful outcome, it's vital the investigator you use is both knowledgeable and ethical.

At RGI, our personnel aren't just highly trained. They're **fully vetted, and regularly DBS checked**. They also undergo full disability awareness and cognitive interview training.

They understand how to ask the most difficult of questions in the most sensitive of ways. They're totally professional. And, should the need arise, they **know how to calm potentially challenging situations**.

If that wasn't enough, they're actively monitored and **handpicked for every job**.

As a further measure of our uncompromising standards, we not only investigate, but are also registered to deliver the latest SIA-compliant qualifications. In short, **we work hard to ensure that one day all investigators will operate the RGI way**.

TAILORED SOLUTIONS, AT YOUR SERVICE

Our portfolio of services is regularly reviewed to ensure we provide the most comprehensive, up-to-date and effective investigation solutions.

Most importantly, however, **each service is tailored to each client's specific needs.**

With highly experienced investigators, sophisticated information databases and a management team made up of leading counter-fraud specialists, **we offer true insight, capability and expertise.**

"We have been able to record some impressive savings as a result of reports conducted by RGI – and the reports are always of a very high standard."

INTELLIGENCE SERVICES

We have always believed that precise, well-sourced intelligence is the lifeblood of effective claims investigation

It should therefore be no surprise to hear that our clients enjoy claims validation and investigation services that are **underpinned by sound, robust intelligence**.

As the first claims company to build an intelligence capability, supported by the tools needed to turn information into evidence, **we have long been recognised for our skills and integrity**.

With highly trained analysts combining research, data mining and expert scrutiny, **we deliver enviable solutions** in fraud investigation, claimant profiling, defining investigation strategies and the creation of evidential packages.

With a comprehensive intelligence 'toolbox' at their disposal, **our analysts provide quality information** in such a way that even the most complex links between events and individuals can be easily visualised and understood.

Our intelligence capability acts as a solid foundation to all our services and ensures that **RGI clients benefit from a rich repository of data**.

SURVEILLANCE SERVICES

Expert covert surveillance remains an effective tool in gaining real insight into the validity of a claim.

From providing clear, compelling evidence of an individual's true level of injury, to confirming commercial theft and fraud by employees, surveillance can either **deliver indisputable proof of the validity of a claim or show culpability.**

At RGI, we provide clients across the insurance, corporate and government sectors with the confidence and reassurance that we will protect their reputation at all times – all while **delivering high quality compliant video footage** without compromising the claims investigation.

At the very forefront of surveillance services in the UK, our surveillance teams comprise of carefully vetted former police and military personnel. Each team member offers **significant experience, expertise and knowledge** in the deployment of covert surveillance techniques and has the most up-to-date covert video and communications technology at their disposal.

The result? Our evidence packages are of the highest quality and include a comprehensive report with conclusions, video or photographic evidence, as well as signed surveillance logs in **compliance with judicial processes.**

CREDITOR **CLAIMS** **VALIDATION**

Whether it's the work of organised gangs, opportunistic homeowners or policyholders in financial hardship, Income Protection, Payment Protection and Personal Accident & Sickness policies are far from immune from fraud.

At RGI, we have a reputation for swiftly and efficiently assessing and validating such claims. Completing all investigations in a discreet and sensitive manner, **we equip our clients with well-proven, bespoke solutions to filter out fraudsters.**

Pioneers in adopting the intelligence-led approach that is now used by others, **we painstakingly validate existing information** and gather new data, all to ensure that issues are resolved quickly and accurately.

Carrying out both desktop and field investigations, **we provide comprehensive reports**, complete with clear recommendations and conclusions – and all for a fixed fee.

Optional investigation services are available if required, as are additional covert enquiries and surveillance. We also offer a comprehensive First Notification of Loss (FNOL) screening service to assist our clients in quickly identifying claims that may require a 'more focused' approach.
