

2012 Update for employers CII insurance qualifications

There are a number of changes to the continuous assessment course that will come into effect in 2012/2013. Details of these changes will be sent to individual candidates affected. This will include multiple reminders to students enrolled for units where continuous assessment is being withdrawn, however below is an outline of the changes.

Withdrawal of Advanced Diploma continuous assessment courses

As communicated previously, and as detailed in the candidate guidelines, the continuous assessment option for the following units will be withdrawn at the end of 2012:

- (530) Economics and business
- (655) Risk management
- (820) Advanced claims
- (930) Advanced insurance broking
- (945) Marketing insurance products and services
- (960) Advanced underwriting

Similarly, the following units will be examined for the last time in October 2012:

- (555) Life and disability underwriting
- (556) Life and disability claims
- (735) Life assurance
- (790) Private medical insurance

This means that candidates using the continuous assessment option for the above units need to complete all assignments and, where successful, use the 10% adjustment to their exam, no later than the October 2012 exam session.

Continuous assessment enrolments for these units will not be accepted after 06 July 2012, to ensure that candidates have enough time to complete the course before October 2012 (the assignment submission deadline for this session is 14 September 2012).

Following the withdrawal of units 555, 556, 735 and 790, the subjects will be covered at Diploma level, with four new Diploma-level units to be examined from April 2013. Continuous assessment courses for these units will be introduced in 2013, as detailed overleaf.

Enhancement of Diploma continuous assessment courses

The continuous assessment course for **all** Diploma in Insurance units will see enhancements introduced in January 2012. Assignments for these units will be accessed and submitted online – students will benefit from:

- individual feedback on their assignments
- simplified completion rules – candidates will be required to pass all assignments to pass the course
- a reduced number of assignments to complete – but with all the course material still covered
- online accessing and submission of assignments through RevisionMate – meaning more convenient submissions and faster turnaround for marked assignments.

Students enrolled after 01 July 2011 on the existing paper-based continuous assessment course for these units, who have not yet begun submitting assignments, will be given the option to complete the course in the current format or switch to the new scheme in January 2012. These students will be contacted and invited to switch when the new course becomes available in January. **Any students that begin submitting assignments using the existing paper-based scheme will be required to complete on this basis and will not be able to switch to the enhanced online scheme at a later date.**

The format of the new enhanced scheme is detailed overleaf.

Continuous assessment format in 2012

Units	Course format
(530) Economics and business (655) Risk management (820) Advanced claims (930) Advanced insurance broking (945) Marketing insurance products and services (960) Advanced underwriting	• Three assignments – candidates must complete and pass all three to complete the course and receive the 10% adjustment • To pass, each assignment must receive a grade C or above • One resubmission is allowed per assignment • Assignments are accessed and submitted online through the CII's RevisionMate study tool • The course for these units has to be completed and the 10% adjustment used before October 2012
(555) Life and disability underwriting (556) Life and disability claims (735) Life assurance (790) Private medical insurance	• A workbook of assignments is sent to the student on enrolment • At least seven assignments plus one final assignment (which assesses across the exam syllabus) should be completed and submitted by post • To pass and receive the 10% adjustment, candidates must receive a grade B or above on the final assignment. • The grade on the final assignment, together with the five best grades for other assignments must also result in an overall average grade of B or above • No resubmission of assignments allowed • The course for these units has to be completed and the 10% adjustment used before the final sitting in October 2012
(P05) Insurance law (P90) Cargo and goods in transit insurances (P91) Aviation and space insurance (P92) Insurance business and finance (P93) Commercial property and business interruption (P94) Motor insurance (P96) Liability insurances (P97) Reinsurance (P98) Marine hull and associated liabilities	• Seven assignments – candidates must complete and pass all seven to complete the course and receive the 10% adjustment • To pass, each assignment must receive a grade B or above • One resubmission is allowed per assignment • Assignments are accessed and submitted online through the CII's RevisionMate study tool
