Thursday 28 September, 10AM to 4PM

Royal College of Psychiatrists, 21 Prescott Street, London E1 8BB

Registration open from 1 September at www.healthclaimsforum.net

£100 per person

We've invited experts from around the industry to share their expertise, looking at the customer journey from sales and pricing through to claims, covering anatomy and diagnostic techniques along the way.

This will be an interactive day of learning for;

- Anyone who has an interest in claims, or is currently working in other areas of the Protection business, regardless of whether they have any previous claims assessment experience
- Claims Assessors who are interested in expanding their knowledge of the wider Protection business, and how these interact with each other

AGENDA (AM)

10.00 to 10.30: Registration and Coffee

10.30 to 10.35: Chairman's Introduction

Welcome from Sid Corley of Aviva, including the latest updates from the Health Claims Forum

10.35 to 10.55: Anatomy- The Human Guinea Pig Show

Tom Warrander (Medical Mavericks); looking at the heart and liver with ECG and ultrasound

10.55 to 11.05: Medical Terminology

Kat Brightwell (Legal & General); brush up on your Latin with 'ologies' and 'itis's'

11.05 to 11.20: Introduction to Underwriting

Paul Hunt (SCOR); it's not all about automation- the real human underwriter is alive and well!

11.20 to 11.40: Anatomy- The Human Guinea Pig Show

Tom Warrander (Medical Mavericks); investigating the lungs with spirometry and bronchoscopy

11.40 to 11.55: Pricing & Reinsurance

Niel Daniels (SCOR); reinsurance pricing and the relationship between claims experience and price

11.55 to 12.10: Protection Sales & Marketing

Pacific Life Re; changing protection- how providers are adding value to their traditional offerings

12.10 to 12.30: Advances in Neuro-diagnostics

Dr Chris Ball (CMO for Gen Re) discusses the latest diagnostic techniques in neurology

12.30 to 1.15: LUNCH

AGENDA (PM)

1.15 to 2.15: Breakout Session 1. Choose from;

- 1) **Critical Illness part 1:** Nigel Homer of Aviva takes a close look at the cancer definition, the most common cause for CI claims, focusing on pathology, risk factors, symptoms and claim factors
- 2) **Income Protection part 1:** Sarah Gilbey from UNUM and her team of Income Protection experts will look at the early stages of an Income Protection claim to include key dates, definitions and financials

2.15 to 2.30: Afternoon Break

2.30 to 3.30: Breakout Session 2. Choose from;

- 1) **Critical Illness part 2:** Swiss Re's Neil Morgan on heart attacks, looking at all things 'myocardial infarction', anatomy to diagnosis, claims evidence requirements and key claim considerations. Kieran Tarrant from SCOR will then cover strokes- what constitutes a stroke under the CI definition and how are these claims assessed?
- 2) **Income Protection part 2:** Adam Richards of Albany Group will start by giving an insight into desktop claims investigations, online evidence sources and Data Protection considerations. Amanda Fyffe of RGL Forensics then looks at the financial information we can all find online. Finally, Julie Yates of Capita reviews some actual claims which show where investigating 'red flags' can take us!

3.30 to 3.50: IFED

DCI Oliver Little (City of London Police) on the work of the Insurance Fraud Enforcement Department (IFED), including; the type of cases that IFED typically get involved with, the work involved in getting a case to court and a focus on some real examples

3.50 to 4.00: Quick Refresher

Sid Corley returns to bring the day to a close

4.00: Drinks Reception

Please stay and join us for a drink or two if you can!

5.00: Close
