About us

Establishing The Truth

Devlin Associates has been protecting the insurance, finance and business communities against fraud and misrepresentation since 1987. We specialise in the following areas of investigation:

Disability, Sickness and Personal Injury Verification

Many forms of disability, sickness and personal injury claims rely to a significant extent upon self reporting diagnosis. Determining the integrity of this 'diagnosis' can be extremely difficult to establish without an **independent** assessment of the circumstances. Using a combination of desk-based research and lifestyle observations (surveillance), we provide insurers, employers and legal advisers the evidence they need to make an objective and fair decision when faced with claims where the validity is not easy to determine.
