Supporting people with learning disabilities

KEY VALUES

Respect - at all times for everyone we support, their family, friends, our colleagues and other professionals.

Dignity - no-one should ever be made to feel uncomfortable, belittled, unvalued, ridiculed.

Valued - everyone should be valued just for who they are.

Caring - to treat everyone with compassion and kindness.

Emotional well-being - staff will be in touch with people's emotions.

Happiness - people who are happy do better in life and are more likely to have better health.

Safe - people should never be in fear from the people they live with, their staff or family and friends. Staff must be alert to possible abuse and feel it is their personal responsibility to make sure they don't come to harm.

Recognise skills or strengths and make sure people know they have these skills no matter how small or unusual.
