An Introduction to IFED

12th November 2021

Colin Jemide

Overview of IFED

Created in 2012 and funded by Association of British Insurers (ABI)

IFED is a Specialist Police Unit hosted by the City of London Police focused on tackling insurance fraud across England and Wales.

IFED consists of 52 staff with a combination of 35 Police Officers and 17 Police staff made up of 4 operational teams and a support hub.

IFED (Aims & Objectives)

Tackling serious, organised and opportunistic fraud through detection, disruption and prevention.

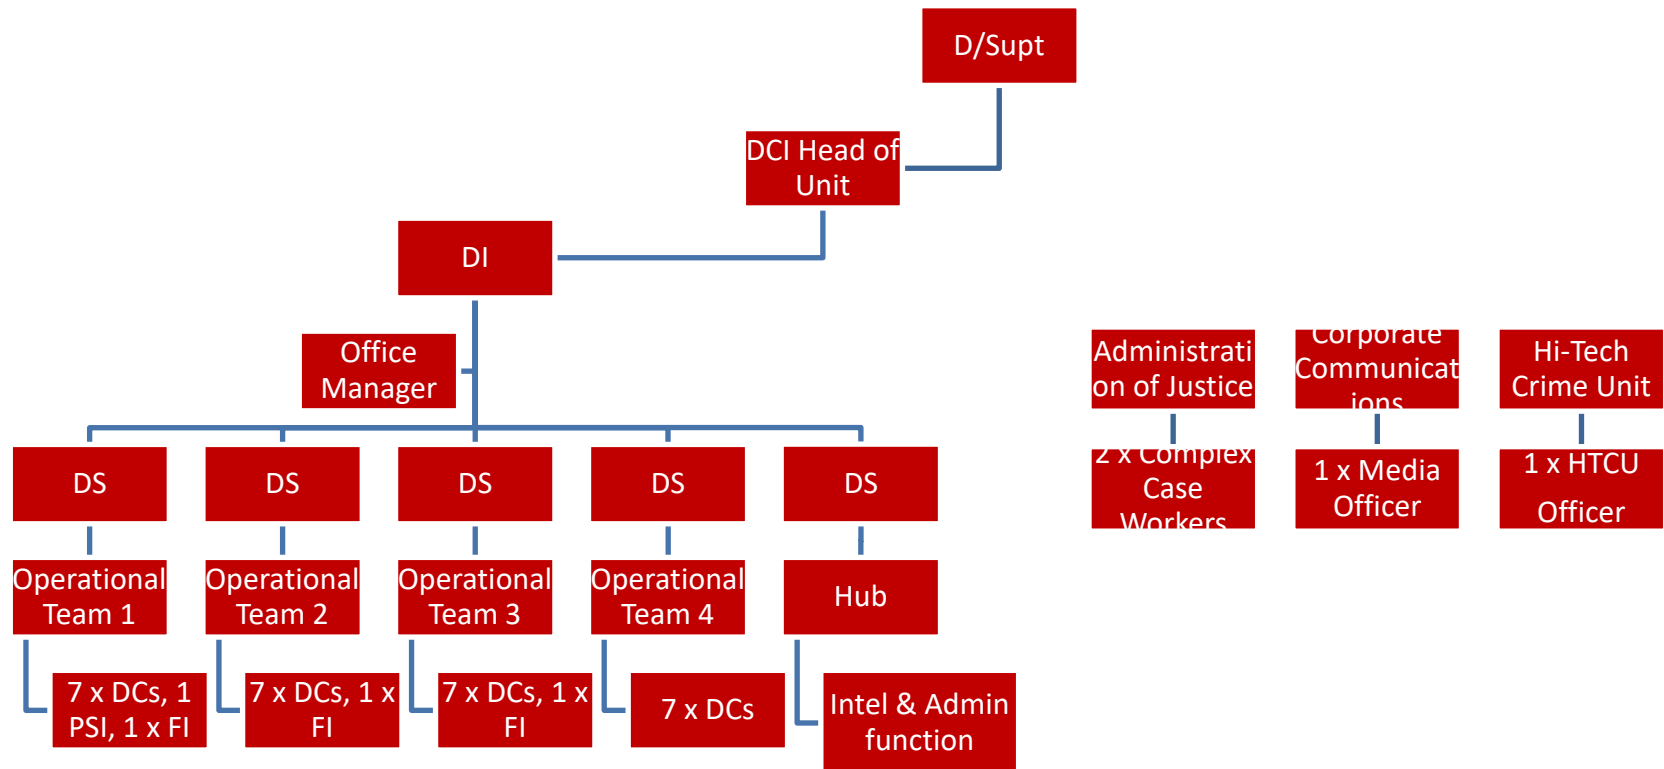

To raise public awareness of insurance fraud and reduce victims

To change the perception that insurance fraud is low risk, acceptable and victimless.

Be a centre of excellence to improve overall response to insurance fraud.

To target criminal finances.

CIVIL CASES

CRIMINAL CASES

Case Acceptance & Scoring Matrix

Key Considerations

Seriousness

- Strategic Threat Assessment
- NLF Priorities
- PIP Levels

Evidential Assessment

- Age of offence
- Evidence of offending

Offender Assessment

- Offender Details
- Scale

Victim Assessment

- Type
- Number of Victims

Victim Impact

- Public Risk
- Reputational Damage
- Financial/Gain loss (Potential)

Referral Advice

- ☐ Detailed suspect(s) information – DOB, email, mobile/landline numbers, etc. – this assists our searches
- ☐ Fully outline the evidence obtained to support a criminal investigation, and include any potential evidence available from other sources, e.g. other insurers, private investigators, other insurers/financial institutions/loss adjusters/witnesses etc.
- ☐ Detailed explanation of the circumstances/offence, how it/the suspects were identified and why you are suspicious.

Other Key Considerations

- Likelihood of a successful prosecution, CPS/Realistic prospect of conviction,
- Civil (balance of probabilities) v Criminal (Higher burden of proof)
- Jurisdiction – England & Wales
- Making Suspects aware of potential police involvement could jeopardise the investigation. (Referral could be rejected)*
- Are there any ongoing civil cases?

The Referral Process

STAGE 01

- Referral Received
- Crime Recorded on COLP Crime and Intelligence systems

STAGE 02

- Case is reviewed, and scored using the Matrix
- Referral Meeting for decision.
- Alternative disposals considered for rejected cases considered.

STAGE 03

- Insurer informed of outcome and allocated to an Officer
- 14-day time frame for referral received to informing insurer/victim

STAGE 04

- OIC is responsible for liaising with insurers to obtain the required evidential package
