The Vacancy

Overall Job Purpose

The main purpose is to assess income protection (IP) claims in line with current UK industry best practice. There will also be a requirement to help train other assessors in IP claims assessment.

Accountabilities

- Assess IP claims. This assessment must follow current UK industry leading claims practice and will include obtaining medical and other information as well as drafting and issuing claims decision letters and other claims related correspondence.
- Work with the strategic underwriters, management, reinsurers, and other stakeholders to ensure the swift and correct outcome of a claim.
- Work with the strategic claims team and help it train other assessors based in SA to be able to assess IP claims. This will be a variety of mentoring and coaching, holding case study sessions and delivering training on specific topics related to IP.
- Occasionally assist with QA checking of completed claim assessments.

Skills Required

Essential

- A broad experience in assessing and managing IP claims as detailed above
- A detailed knowledge of the UK insurance market and regulatory environment.
- Experience of dealing directly and effectively with the FOS on claims related matters
- Good experience of working with reinsurers.
- Confident in presenting ideas and training peers.
- Intermediate skills in Word, Excel, PowerPoint, and usual Office apps.

Desirable

- CII claims qualification
- Auditing/QA checking skills
