

If you're looking for a new challenge,
 we've got a world full of them.

Claims Manager Reinsurance

Strategic goal of the claims team:

To manage claims where we add value, to enhance the value of the in-force book and to provide client value added service and risk management solutions in a timely and effective manner.

General job outline:

The Claims Team Manager is responsible for ensuring claims operational excellence across all lines of business through leading and developing a team of claims specialists/administrators in maintaining sound claims management practices, providing excellent service to clients and driving key client claims strategies.

The opportunity

Contribute to the achievement of the business objectives of the Claims Team through:

- Leading, inspiring and developing a team of claims specialists/administrators to deliver the Claims team's goals through effective planning and management of people, skills and resources.
- Undertaking regular performance management reviews with team members, providing ongoing coaching and quality training.
- Proactively sharing knowledge and experience with team.
- Showing active passion and drive for our client centric culture; the ability to work in partnership with clients is a key requisite.
- Planning the delivery of client claims service at levels appropriate to the business through aligning the interests and efforts of both parties and building positive relationships.
- Actively manage case loads and work flows.
- Working with budget.
- Managing operational risk in accordance with SR standards.
- Analysing and providing accurate statistical and management information. Contributing the required claims information for business reporting purposes (KPIs etc).
- Contributing to the claims leadership and strategy teams in finding new/alternative ways of working and constructively challenging the status quo.
- Contributing proactively as an effective team member to the success of the Claims leadership team.

Additional accountabilities

- Develop processes/systems to ensure that knowledge and best practice standards are stored and easily accessible

across claims, underwriting and, where appropriate, the wider business.

- Provide technical support to both internal and external clients as required e.g. product development, feedback loops, internal/external claims grey panel etc.
- Support and promote the model office strategy and provide input to solutions to enhance our market share. Ensure model office opportunities are highlighted and communicated to clients on a regular basis where it makes sense.
- Liaise with all disciplines e.g. actuarial, underwriting etc, to assist claims and client management.
- Contribute to business initiatives and projects ensuring claims are represented and considered in broader based company activities.
- Ensure that processes applied are in line with local regulatory and legislative controls
- Comply with risk management guidelines and practices.

About you

Proven people leadership and coaching skills.
Full understanding of relevant best practice issues and initiatives which impact on bottom line results.
Excellent interpersonal skills, including strong negotiation and influencing skills.
Innovative and solution orientated, strong change consultant.
Strong ability to deliver planned outcomes on schedule.
Strong written and verbal communication skills.
Analytical.
Drive for information.
Excellent medical, occupation, avocation and financial technical knowledge relevant to claims assessment.
A levels/ACII/DLDC (or claims equivalent) desirable.
Awareness of Swiss Re structure.
Thorough understanding and application of all ABI guidelines, codes and statements of best practice.
Thorough understanding of the UK and Ireland regulatory environment to include but not limited to: FSA and FOS.

About us

This is your opportunity to join one of the world's leading reinsurers. Our reinsurance business at Swiss Re is about understanding and analysing the major risks that concern the world - from natural catastrophes to climate change, from ageing populations to cybercrime.
