

Vocational Support Services Ltd

**Specialising in the provision
of bespoke solutions for
absence management and
occupational health**

Company Background

Arrow is a specialist service that provides solutions for both occupational health and absence management issues.

By using experience gained working for both large and small companies through the insurance market, Arrow is able to devise tailored vocational rehabilitation solutions.

Linda Fletcher is an Occupational Health Nurse with General and Mental Health Nursing qualifications. She also has over 20 years experience managing sickness absence and rehabilitation directly for employers or through insurance related claims.

Helen Hackett is a Registered General Nurse, with a diploma in Management Studies and the National Diploma in Occupational Safety and Health. Helen has over 12 years experience in this field.

Sickness Absence

Most employees will have at least one absence a year, and in the majority of cases this will last a few days at most. Increasingly, though, poorly managed absence can lead to long term absence resulting in reduced productivity and spiralling costs.

Solution Based Absence Management

Arrow has a holistic approach to both occupational health and absence management. *We believe that each sickness absence has a workable solution.*

The benefits of partnering with Arrow include:

- Managing illness before it causes absence from the workplace
- Speeding up the identification of the cause of absence
- Successfully returning employees to work as soon as it is safe to do so
- Improving overall absence levels within the organisation
- Case management of dynamic return to work programs
- Whilst improving overall absence levels within the organisation, reducing associated costs

Solution based absence management is achieved through:

Employee Absence Management

- Devising effective and realistic return to work programmes
- E-mail / fax / telephone notification of absence
- Telephone screening interviews
- Face to face interviews by qualified nursing personnel
- Provision of detailed reports

Vocational Rehabilitation

- Vocational retraining
- Understand the culture and needs of the organisation to achieve a workable solution
- Facilitating meetings between employer and employee
- Bespoke return to work plans, phasing attendance, and using tasks to build confidence leading to successful returns to work

Medical Collaboration

- Obtaining reports from an employee's General Practitioner and Consultant
- Endorsement of return to work plans by relevant medical parties
- Referral to an Occupational Health Physician

e-Helpline / Helpline

- Arrow is committed to providing an excellent level of customer service. We are always available to answer questions and provide information on rehabilitation options and medical explanations

Pre-Employment Screening

- Arrow is also able to offer a desk based service to review potential employees health questionnaires. Where required, we can arrange onward referral to a suitably qualified health professional such as an Occupational Health Physician

Access to Additional Services

- Provision of Cognitive Behavioural Therapy and Stress Counselling
- Provision of Functional Capacity Assessment both from a pre-employment perspective and a rehabilitation programme
- Drug and Alcohol Management Programmes
