

Claims Validation & Cost Containment Solutions.

Where Claims Excellence is Compulsory

i-Detect® Intelligence Mapping.

The i-Detect® System has been developed to rapidly detect risk on both underwriting and claim levels.

The mapping is not prejudiced to any claim type and criteria is easily implemented to ensure that all outcomes are bespoke to you.

Claims that are ring-fenced after initial inspection are categorised appropriately and promptly returned with all findings, detected anomalies and evidenced recommendations.

Clients using our i-Detect® System are currently placed in the most competitive position within the market. It also allows them to proceed to the next stage of claims validation in the most informed position.

i-Verify® Conversation Management.

Our distinctive techniques is what first established our leadership within the claims arena.

i-Verify® verifies the authenticity of the claim account on numerous levels simultaneously. The model also gains the full detail of any claim and as such, also acts as a solid validation process even when there are no concerns.

All claims should be validated correctly and all customers deserve a speedy response. The product provides even better customer service for clients and their customers, which is what they deserve.

i-Verify® provides a world-leading solution as an overall claims validation process.
