11.20-11.30 **Medical Terminology**

Want to improve your interpretation of those tricky medical reports? Learn your “itis” from your “ology” with Kat Brightwell from Legal and General.

11.30– 11.40 **Underwriting**

Isn't it all done by computer nowadays? Paul Hunt from SCOR will show you it's not! Why do we do it, how do we do it. It's all here!

11.40-11.50 **Pricing and Reinsurance**

Who decides how much the customer pays? Why do companies use reinsurance ? All the answers from the human calculator, Jonathan Hughes of RGA!

11.50-12.00 **Questions, Questions, Questions?**

Your chance to fire your questions at the morning's speakers.

12.00-12.10 **Coffee break**

Grab a quick coffee and get ready for your selected breakout session!

12.10-13.00 **Breakout Session 1: Choose from:**

Critical Illness— Cancer

Sue Lord from LV= gives us an overview of all things Cancer. For our biggest claim condition we'll be devoting this entire breakout session to considering what is cancer, a focus on the most common types (breast, bowel and skin), risk factors, symptoms and how to assess these claims. Everything you'll need to hit the ground running.

Income Protection— From the beginning

Sarah Gilbey from UNUM and her team of Income Protection experts will look at the early stages of an Income Protection claim to include key dates, different definitions and financial aspects.

13.00-13.45 **Lunch**

13.45-14.45 **Breakout session 2: Choose from:**

Critical Illness– Stroke & Heart Attack

What does a 'heart attack' even mean and what's actually covered under a CI policy? Swiss Re's Neil Morgan talks us through all things 'myocardial infarction' related, from anatomy to diagnosis, evidence requirements to key considerations. Mike

Bolshaw, from Munich Re, will help increase our knowledge of stroke – what is a stroke? How are these claims assessed and what are the key points to be aware of as a CI claims assessor?

Income Protection – The nitty gritty

Progressing the claim covering evidence gathering , assessment of evidence, function v diagnosis and the relevant tools available to assist an assessor with input from industry experts in these fields.

14.45-15.00 **Coffee break**

15.00-16.00 **Breakout session 3: Choose from:**

Critical Illness – Neurology

Paul Blyth from Scor Global Life, joins us to discuss the world of benign brain tumours – what are the most common types seen? What symptoms usually precede a diagnosis and how on earth do you go about evidencing 'permanent neurological deficit'?! Nicky Virgo from RGA, will share her knowledge & expertise of 'multiple sclerosis'. Nicky will explain the medical basics underlying the illness, how an individual will go about being diagnosed and what treatment options are available. Evidence requirements and misrepresentation concerns will also be addressed .

Income Protection – Claims management

Management of in force claims, rehabilitation, linked claims, proportionate benefit – it's all here!

Death and Terminal Illness – all you need to know

Dave Thompson from Scottish Widows and Ian Rowe from Pacific Life Re will walk you through all the skills needed for the assessment of Life and Terminal Illness claims.
