Peak Flow

Your airways can be narrowed by:

1. Mucus production
2. Constriction (bronchoconstriction if you're posh!)
3. Swelling of tissues

FOR ALL OF YOU THAT
ARE SQUEEMISH

LOOK AWAY NOW!

Spirometer

FEV1 – Forced Expiratory Volume in 1 second

FEV 6 – Forced Expiratory Volume in 6 seconds

$FEV1 / FEV6$ - % of lung volume expired in 1st second

Lung Age – A bit if fun!

Heart

Recording an ECG – usually has 12 different traces, each one looks at a different part of the heart.

Basic Pattern:

P wave – Pacemaker firing

QRS – Ventricle Contraction

T Wave – Heart relaxing (or re-polarising)
