

Purpose of the Role (please describe the value and advantages of the role to attract candidates)

The Claims Department at Aviva supports customers through a hugely difficult time as they make a Critical Illness, Death and Waiver of Premium Claims on Protection policies. It fulfils a promise made to our customers when they purchase a new Protection policy to protect them and their loved ones if the worst happens.

As a Claims Assessor you will be working as part of a highly dedicated team who support our customers and make high quality and fair claims decisions

The role involves building excellent relationships with our customers, both on the telephone and in writing whilst assessing the medical and technical aspects of their claims under a variety of risk products. It will be your job to ensure that valid claims are assessed quickly but also to identify those claims which are not valid because the criteria has not been met or there has been misrepresentation of material facts.

You will be responsible for gathering the required medical information and considering the reports against the claims criteria to make a sound decision as to whether a claim is valid or not.

Our customers are reliant on the Claims Assessor being empathetic and technically competent to guide and support them through the claims assessment process whilst obtaining the relevant information required. At the same time, the Assessor needs to be confident and assertive when having to communicate unfavourable decisions to policyholders or their representatives.

We are looking for an experienced claims assessor who is dedicated to providing first class customer service who is forward thinking with a positive attitude and thirst for knowledge. They should have an eye for detail and be able to think on their feet, understanding the bigger business picture when decision making.

This is an excellent opportunity to join a special team who deal with customers when they really need our help.

Remuneration will be based on experience.

Location

Bristol or York

Skills & Experience required

Essential:

- At least 1 years experience of Life and/or Critical Illness claims assessment experience
