

Health Claims Assessor

12 Month Contract

Circa £30,000 depending on skills and experience

An exciting position for a Health Claims Assessor has arisen in our Life and Pensions division. This is a fantastic opportunity for an experienced claims assessor who has a wealth of income protection knowledge and proven claims management techniques.

This interesting and varied role will see you actively manage new and ongoing claims from start to finish, ensuring that Wesleyan's customers receive professional and timely advice.

We're looking for someone who can 'think outside the box' and share innovative ways of gathering evidence to make sound decisions regarding acceptance and continuance of income protection claims.

You must have experience in a similar role as you'll be responsible for the authorisation of acceptance and payment of claims within agreed authority levels, and have the ability to work on your own initiative.

Excellent communication skills are essential as a Health Claims Assessor as you'll produce free form letters, as well as using your persuasive and influencing skills to challenge Financial Ombudsmen and legal advisers.

If you're looking for a role which can provide an interesting portfolio, work with high net worth cases and have the relevant experience and skills, we'd love to hear from you.
