

Clinical Support Consultant– MetLife UK, Brighton

Why MetLife?

Like you we are passionate about care. Driven by a desire to do right for our customer and colleagues through wellness initiatives and the care of careers, MetLife UK builds on these pillars to ensure we offer the very best to our customers.

Mindful that your career has spanned many years of education and professional commitment we want to take your existing profession and build on it.

You can use your medical training and experience in a Monday to Friday, 9am to 5.30pm office environment. You can mentor and lead training, develop your colleagues capabilities when assessing claims and generally be the go to medical expert for claims. You don't have to be front line staff working shifts in the NHS or a private hospital to enjoy your career. At MetLife we will provide you with a rewarding environment and working culture to maximise this new chapter of your career. Now is the time to move your RGN or RMN background into a new setting.

Clinical Support Consultant at MetLife:

Global Operations focuses on creating positive experiences for MetLife customers and helping the company make the best use of its global resources. We're looking for unique talent with fresh perspectives that can propel innovation.
