

Claims Manager – Life/ CI

Who are we?

We are Unum – one of the UK's leading employee benefits providers.

We've been around for 50 years, currently protecting over 1.7 million people, providing security and peace of mind to individuals and their families.

With a Fortune 500, US parent company, we're part of highly successful global organisation, sharing ideas and innovations across teams to create a collaborative work environment. We're transforming our business, and we're keen to increase our digital capabilities to evolve the way we work and optimise opportunities for growth.

Claims Manager – Life/ CI

Summary

To participate as a member of the Claims Management Team in the development of the Customer Care Philosophy and take key responsibility for its application in all areas of rehabilitation, medical services, claims assessment, management and administration. Collective and individual responsibility for approximately £1 billion claims reserves. Travel to other sites and customer visits sometimes at short notice, will be required as part of this role.

Key Accountabilities:

- Develop the expertise of direct reports with support from Clinical Governance and QA, providing coaching and support resulting in the maintenance of our market leadership in rehabilitation, medical services and claims management.
- Act as part of the Customer Care Division's Management Team by contributing to the direction of the division and the development of the strategy of the Claims Department.
- Build, maintain and own strong pro-active customer relationships with designated brokers/platinum brokers/external customers in order to ensure effective service delivery at all times.
- Develop and implement a client/broker relationship management strategy including annual contact plan, working closely with the PAM or designated sales contact to ensure jointly held goals and objectives are met.
- Role includes responsibility for scheme and overall portfolio performance therefore close partnerships with the broker, OH teams, HR teams is paramount to drive a successful prevention, intervention and protection model.

- Support other internal customers and departments in achieving corporate objectives (e.g. Distribution Team, AKAM etc.).
- Participate in social responsibility initiatives and actively encourage direct report participation.
- Ensure full compliance with all Regulatory and Audit requirements, including Treating Customers Fairly initiatives, personally and that of all direct reports.
- Demonstrate the documented Leadership Behaviours on a consistent basis to support the development of cohesive high performing teams, the department and our division.
- Ensure the continued protection of Unum's information, by following all applicable Information Security policies and procedures and by reporting suspected weaknesses in information security controls to the Information Security Officer
- Embed and contribute to the Conduct Risk Framework, wider Solvency II systems of governance principles, Treating Customers Fairly requirements and the Risk Management Framework as it applies to the role and divisional activities and drive improvements as required.

Required Knowledge and Skills:

- Proven leadership and management skills with the ability to lead, motivate and develop a team of multi-disciplinary individuals to achieve success. This will also include performance management and attendance management.
- Ability to undertake strategic planning and its implementation.
- Proven working and higher level knowledge of Income Protection, Life, Critical Illness and/or other non-standard products.
- Proven customer service and relationship management experience.
- General knowledge of insurance industry codes and current practices
- Relevant industry experience (i.e. claims handling in the Risk arena)
