

We're always searching for new solutions.
And people to help us find them.

Claims Specialist - 9 month contract

Strategic goal of the claims team:

To manage only those claims where we add value, and to provide client value added risk management solutions in a timely and bespoke manner.

General job outline:

The Claims Specialist is responsible for maintaining Swiss Re's risk profitability through sound claims management practices and provision of service excellence to clients.

This role could be based in London or Folkestone.

The opportunity

Contribute to the achievement of the business objectives of the Claims Team through:

- Specific to role:
- Providing technically correct claims management decisions whilst applying the appropriate balance of service and risk management
- Actively and appropriately managing a portfolio of new and existing claims in accordance with Swiss Re's claims philosophy, the signed Treaty with the cedent, policy guidelines and agreed service standards
- Ensuring that high valued claims are being managed effectively together with returning the management of claims back to clients where Swiss Re cannot achieve a financial impact on the claims management/duration
- Proactively using internal resources through appropriate referrals to relevant departments e.g Clinical team, CMO's, Underwriting, Actuarial and Legal department
- Monitoring the claims portfolio on a monthly basis ensuring that all claims are reviewed regularly and outstanding requirements followed up in accordance with Swiss Re's review procedure
- Communicating clearly to clients all actions on claims
- Generic accountabilities in supporting the business in the provision of claims service and claims information:
- Provide quality claims input to the business as required eg changes to philosophy and best practice standards, involvement in projects, product and pricing etc
- Support the business in service to clients and promote SRLH technical expertise eg participation in claim seminars, training and client audits
- Contribute required claims information for business reporting purposes
- Contribute to business projects and initiatives ensuring relevant claims issues are considered in broader based company activities
- Develop processes/systems to ensure that knowledge and best practice standards are stored and easily accessible
- Proactive in sharing knowledge and experience with team members

Comply with risk management guidelines and practices

About you

- Full understanding of relevant best practice issues and initiatives which impact on bottom line results
- Excellent medical, occupation, avocation and financial technical knowledge relevant to claims assessment
- Analytical
- Excellent interpersonal skills including strong
- Negotiation and influencing skills
- Strong written and verbal communication skills
