Claims Medical Specialist

UK - London

About Swiss Re

This is your opportunity to join one of the world's leading reinsurers. Our reinsurance business at Swiss Re is about understanding and analysing the major risks that concern the world - from natural catastrophes to climate change, from ageing populations to cybercrime. We combine experience with expertise and innovative thinking to create new opportunities and solutions for our clients. And we enable the risk-taking essential to enterprise and progress. This is only possible with around 10,000 truly exceptional Swiss Re people across our group worldwide.

About the role

We are a market leading team of clinical consultants sitting within the Swiss Re Life & Health claims team. Our mission is to help our clients help people back to work. We do this by providing expert clinical consultation that is evidence based and focussed on helping our clients to manage claims holistically.

We are looking for a dynamic and motivated medical/allied health clinician to join our team of 6 for a contract period of 12 months. You will be experienced in vocational rehabilitation and preferably have a strong psychological background.

The successful candidate needs to be adaptable to work alongside the Life & Health claims team helping to deliver excellent service to our clients, by:

- Developing claims assessors' knowledge and skill in bringing best practice standards in healthcare / rehabilitation, to best practice claims management.
- Reviewing insurance cases and providing sound verbal and written technical clinical claims opinions - to clients as well as Swiss Re's own reinsurance and direct claims assessors - on best practice standards in clinical assessment, treatment, rehabilitation, and vocational rehabilitation.
- Identifying appropriate cases for rehabilitation, and referring for and monitoring rehabilitation to optimise claims management outcomes.
- Proactively maintaining an up-to-date knowledge of clinical and rehabilitation industry developments.

- Attending rehabilitation networking events to ensure awareness of developments within the rehabilitation industry.
- Identifying when clinical and rehabilitation developments may be a risk or opportunity for Swiss Re, and communicating this to relevant stakeholders along with recommendations for management strategies.
- Proactively liaising with rehabilitation providers to ensure the Swiss Re clinical team has a good understanding of providers and services within the UK; building and maintaining relationships with these rehabilitation providers.
- Proactively identifying opportunities for analysis of relevant clinical/insurance data to assist with risk management and/or identification of future risks and opportunities for Swiss Re.
- Working alongside the claims team to identify, develop and implement clinically-focused services and initiatives to clients that are in line with the client strategy.
- Liaising with the claims team to ensure best practice is consistent across client claims books, and problem-solving if and when best practice is not being adhered to.
- Developing, co-ordinating and delivering presentations and clinical training to the claims team, other internal stakeholders, external clients and to insurance / rehabilitation industry groups.
- Initiating analysis of global medical and rehabilitation research and trends and proactively advising of its impact/relevance for claims management initiatives in the UK.
- Identifying, leading and/or being involved in projects as required.
- Building and maintaining relationships with all clients and internal stakeholders, including feeding into pricing and underwriting philosophy.
- Providing support to the Claims Medical Manager and Claims Medical Expert in the negotiation and influence of changes to claims management best practice when appropriate.
