

Advert – Health Claims Forum – Protection Claims Manager

We're looking for an experienced Protection Claims Manager to join our expanding Life and Pensions Division.

The purpose of this role is to manage a team whose responsibility is the assessment and review of claims arising under manufactured protection policies. You'll also have a focus to set, review and implement claims philosophy using your understanding of the market. Our claims portfolio is predominantly income protection claims.

In this role you'll monitor any changes within the market, and contribute to the development of our strategy to ensure that it complements the delivery of market leading service.

You'll also look to minimise the Society's exposure to fraudulent claims and business risk.

As a Protection Claims Manager you'll have the ability to build professional working relationships within the society and with 3rd parties, and maintain an excellent relationship with the Wesleyan reinsurer. As well as, leading and identifying any training needs and requirements necessary to ensure first class delivery, attitudes and behaviors to achieve KPIs.

To be considered for this role, you will have a ACII or Claims Diploma, and experience of successfully managing a team.

The successful candidate will have:

- Strong leadership skills
- A proven background in leading and managing a claims team
- Technical knowledge of Protection Claims
- Excellent analytical skills
- Proactively seeks continuous improvement

Interested? We'd love to hear from you.
